*Aircraft with monthly hangarage or parking are entitled to 50% off the landing fee for that aircraft – terms and conditions apply

Explanatory Notes

1. **Circuit/Touch-and-Go/Go Around**

In any circuit training detail, the final landing, touch-and-go/go-around will be charged at the full landing fee. Go arounds initiated by ATC for reasons of safety or expedition, are not charged.

2. **Instrument Approaches**

Instrument approach fees are charged for all training instrument approaches, whether pre-booked or not. Non-training instrument approaches by aircraft <2500kg are not charged when the weather conditions are worse than visibility 5000m or the cloud base less than 1000ft. Commercial aircraft >2500kg are exempt from the charge.

3. **Handling**

Only one handling fee will be charged per turnaround within the same day. Handling is mandatory for aircraft over 4 tonnes MTOW. Please contact customerservices@lydd-airport.co.uk for charges.

4. **Parking**

Parking is free within the published opening hours. Only overnight parking is charged. Location depends on type of aircraft and length of stay. Monthly parking contracts benefit from 50% reduction in landing fees. (touch and-go/circuit fees not included)

5. **Hangarage**

Monthly contracts are payable in advance. Location is decided by the Airport Authority, according to usage and type of aircraft. Preference is given to long term contracts. Monthly hangarage contracts benefit from 50% reduction in landing fees. (touch and-go/circuit fees not included)

6. **Towing**

Fees are only charged when towing is requested by the Operator, not when the Airport Authority relocates aircraft for its own reasons. Based aircraft may be towed out of their hangar, and towed in after flying, free of charge provided appropriate notice is given. Thereafter, additional tows will attract a fee of £50.

7. **Strasser Scheme**

The Airport does not participate in the 'Strasser Scheme' and accordingly landing fees will not be waived for weather diversions. Genuine emergency diversions prefixed with a "Mayday" or "PanPan" call may be granted a free landing at the Airport Authority's discretion.
